

# GWALIOR GLORY SCHOOL

CIRCULAR JULY 2024 - CLASSES III, IV & V

**“Adaptability is the simple secret of survival”**

Dear All,

Butterflies are one of the most beautiful creatures in the nature. With their intricate patterned wings, delicate nature and brilliant colours, the butterflies signifies the power of transformation and incredible success that can be achieved if we trust the process of change. They are born as caterpillars, cocoon themselves and emerge in their true form. Let us explore more about butterflies.

- A group of butterflies is called kaleidoscope.
- Butterflies vary in size - the largest is around 12 inches across and the smallest is about half inch.
- Monarch butterflies complete enormous migration from North America to South America in search of better weather. They don't sting but they are poisonous.
- Antarctica is the only continent on which butterflies don't exist.
- Butterflies taste with their feet.
- Butterflies drink water from mud puddles to get necessary minerals.
- Butterfly's wings are basically transparent and covered with tiny scales which reflect lights in different colours.

School reopens on **4<sup>th</sup> Julv'24 (Thursday)** Timings: 8:00a.m. to 1:15p.m.
