

GWALIOR GLORY SCHOOL

CIRCULAR JANUARY'25
CLASSES I & II

A new year is about setting fresh goal, embracing new opportunities and believing in your own potential.

Dear All,

A Continent is one of Earth's seven main divisions of large solid area of land. The Earth initially had only one large landmass called Pangea (One Earth). The pieces of Pangea that began to move apart created present day's continents.

- There are 7 continents namely Asia, Africa, North America, South America, Antarctica, Europe and Australia (Oceania)
- Asia is the largest continent in size and Australia is the smallest.
- Africa is the continent with most number of countries. There are 54 countries on the African continent.
- The position of the continents are always changing. For example–North America and Europe are moving away by 1 inch every year.
- World's two smallest countries Vatican city & Monaco belongs to Europe.
- Antarctica is covered almost completely by ice. It is the world's largest polar desert.
- The Line Island in Kiribati (Oceania–Australia) is the first place to welcome New–Year.

WINTER BREAK: 28th Dec.'24 (Saturday) to 8th Jan.'25 (Wednesday)
