

GWALIOR GLORY SCHOOL

CIRCULAR JULY 2025

CLASSES - I & II

**From a tiny seed, it starts to grow, with roots and stem, a vibrant show.
Leave unfurl, reaching the sun, A world of green has just begun!!**

Dear All,

Plants are vital for life on Earth, Serving as the foundation of most food chains, producing the oxygen we breathe, and providing essential resources for human and animal survival. Plants prevent soil erosion, regulates the water cycle and provide shelter for wildlife. Let us know some more facts about plants.

- Plants "TALK" to each other. They communicate through chemical release. E.g. during grass cutting a strong smell comes out as warning signal.
- Some plants are carnivorous like Venus fly traps, pitcher plants.
- Bamboo is a super-fast growing plant.
- Caffeine is a natural pesticide, it protects coffee plants from being eaten by insects.
- A single tree can produce 170,100 pencils.
- Rainbow eucalyptus is a multi coloured tree that sheds its bark to reveal fresh spectrum of colours time to time.
- The Tonka bean tree found in Panamanian rainforests can survive lightning strikes and can transfer the electricity to kill other plants.
