

# GWALIOR GLORY SCHOOL

Circular February'26

Classes 1 & 2

## "Somewhere, something incredible is waiting to be known."

Dear All,

The space is vast and mysterious, filled with stars, planets and galaxies beyond our imagination. By studying space, we learn how the universe came into existence and how The Earth fits into it. Exploring space inspires curiosity, inventions, and hope for a brighter future.

- The study of space is called "Astronomy".
- Tools that are used to study space are Telescopes, Satellites, Space Robots and Super Computers.
- Space is completely silent. As there is no air or water, sound cannot travel.
- Space has "River" of stars. There may be more stars than grains of sand on the Earth.
- A day on Venus is longer than a year on Venus.
- Footprints on the Moon left by the astronauts will remain there forever as there is no wind or water.
- Astronauts grow taller in space because there is no gravitational force.
- Mercury being closest to the Sun, completes one circle around the Sun in 88 days and Neptune being the farthest takes 165 years.

# Flower Arrangement Competition

## NOTE FOR COMPETITION -

Children will bring all necessary things for flower arrangement competition from home.

**There is a trick to remember all PLANETS name in order**  
Just remember this sentence

**“My Very Educated Mother Just Served Us Noodles”**

<b>My</b>	<b>Mercury</b>
<b>Very</b>	<b>Venus</b>
<b>Educated</b>	<b>Earth</b>
<b>Mother</b>	<b>Mars</b>
<b>Just</b>	<b>Jupiter</b>
<b>Served</b>	<b>Saturn</b>
<b>Us</b>	<b>Uranus</b>
<b>Noodles</b>	<b>Neptune</b>

Stars go twinkle, planets glide, Moon says “hello” as it slides.  
Space goes zoom but soft and slow- A cosmic dance, a gentle glow!!
