

GWALIOR GLORY PRIDE

CIRCULAR - AUGUST 2024

CLASSES- PRIMARY (I, II, III)

“To succeed in your mission you must have single-minded devotion to your goal.”

Dear All,

India is one of the oldest civilization in the world with a kaleidoscopic variety and rich cultural heritage. India made remarkable socio-economic growth post independence and became the 5th largest economy in the world. A wide variety of Indian products are being exported all over the world. Let's know more about them.

- India is a major exporter of petroleum products, including refined petroleum, LPG & petrochemicals.
- India is the world's largest exporter of cut and polished diamonds, gems and jewellery.
- India is a major exporter of medicines and other pharmaceutical products world wide.
- India is a major producer and exporter of iron and steel products.
- India has emerged as a major exporter of alternative medicines like Homoeopathy & Ayurveda.
- India is a major exporter of textiles and apparel (clothes) which includes cotton, silk, wool and jute.
- India is the highest milk producer and ranks first position in the world.
