

GWALIOR GLORY PRIDE

MARCH CIRCULAR 2026

CLASSES :- I, II, III

“TOGETHER WE MAKE A RAINBOW OF JOY.”

MARCH is a colourful mix of *pastel, green and yellow*, which reflects a time of transition, where the cold, muted tones of winter are replaced by the vibrant awakening of nature. Together, these colours evoke a sense of hope, peace and renewal as the days become warmer and brighter.

Let Us Know Some Interesting Facts About Colours :

- Only 3 primary colours of light i.e. **Red, Green and Blue** (RGB) are used by TVs, phones and computers which can produce millions of colours.
- Objects don't actually "have" colour. They reflect light. Our brain interprets that light as different colours.

- Colours can change our mood –

Red increases energy and excitement.

Green is soothing and reminds us of nature.

Yellow is cheerful and bright.

- Some animals can change colour to communicate or react to temperature like chameleons.

- Octopus change colour for camouflage

- Traditional Holi colours we get from Nature:

 Marigold flowers – yellow/orange

 Neem leaves – green

 Turmeric – bright yellow

 Beetroot – pink/red

- White is a mixture of all colours of light. Black is the absence of light. That's why black objects absorb more heat from sunlight.

HAPPY HOLI
