- Finger Painting, Balloon Painting

Dear Mother,

Converse with your child in English using Small / Short words & action words in the daily routine. Children have the tendency to first listen and learn and then they gradually speak or recite. Do not force the child to speak, but encourage him to speak.

TIP - Resist doing for children what they can do themselves.

Encourage tactile learning by allowing your child to touch & feel their own body parts or a toy. Also help them understand Good Touch & Bad Touch.
